REPORT OF THE TAX COLLECTOR

For the Year Ending December 31, 1933

I herewith submit my report as Tax Collector for the year ending December 31, 1933. At this time I wish to call to the attention of the tax payers the law regard to the collection of taxes, as I believe that the majority of tax payers do not understand clearly the time limit on payment of real estate taxes, therefore I publish for their benefit Chapter 128 of the Acts of 1923, as follows:

If any tax, betterment or special assessment remains unpaid fourteen days after demand therefor, the Collector, in the case of any tax, betterment or special assessment upon Real Estate, within one year from October first in the year of assessment, and, in case of any other tax, within two years from said October first, shall collect the tax, together with all incidental charges and fees, in such manner provided by law.

The Assessor's commitment to me of taxes, State, County and Town and also Motor Vehicle Taxes for 1933 is made up as follows:

State and County Tax:

REPORT OF THE TRUSTEES OF THE ADAMS LIBRARY

The board met for organization February 18, 1933, at the Library. The officers of last year were reelected

Chairman: A. H. Davis.

Secretary: Mrs. E. R. Clark.

Treasurer: Wilson Waters.

A. H. Davis and Wilson Waters to approve all general bills. A. H. Davis and Mrs. E. R. Clark to approve bills for books. Mrs. Ida A. Jefts reappointed librarian, and Mrs. G. W. Peterson assistant.

The past year adult patrons have had the opportunity of going to the stacks to select books, a privilege which has been freely used, and much appreciated.

In June the board suffered a great loss in the death of Dr. Waters, who died June thirteenth. Dr. Waters had served as a trustee for more than thirty years, and being a man of rare scholarly attainments, a great lover of books, his advice on matters pertaining to the library was invaluable. He served as treasurer of the board for many years.

On June 24th a joint meeting of the trustees and board of selectmen was held to fill the vacancy on the board of trustees caused by the death of Dr. Waters, and Mr. Frederic A. P. Fiske was chosen to serve for the remainder of the year. Mr. Fiske has always been very much interested in the library, and is a valued member of the board, of which he is now the treasurer.

That the usefulness of the library is growing each year is evidenced by the fact that the circulation is increasing each year, being 1,314 over that of last year.

Treasurer.

NORTH CHELMSFORD LIBRARY CORPORATION

North Chelmsford, Mass., Dec. 29, 1933.

The trustee's of the North Chelmsford Library submit the following report for the year 1933:

The circulation for the year was 20,276.

Number of sessions 163.

New books added 345.

Many books have been rebound and repaired.

The magazines which were added a few years ago, are being increasingly used, and the reference and encyclopedias are much in demand by the school and the teachers.

Once again the Grim Reaper has visited us, and we mourn the loss of one of our trustees, Miss Gertrude A. Jones. As a teacher of many years experience she was in close touch with the requirements of the school children and rendered valuable assistance in the selection of books required by them.

Miss Jones possessed a very pleasing personality, and we shall greatly miss her in our work.

RECOMMENDATIONS

During the year 1933 the police have made a check of all mercantile places. We have seen that they have secured the required license for their business. By this we have turned into the Town Treasurer a large sum of money.

I wish to mention that I am not requesting the purchase of any new equipment this year. I feel that with an appropriation for repairs to the present equipment it will be in good shape.

With the splendid results and importance of the raidio throughout the state. I recommend that before the end of this year we trade one of the Motorcycles now in use for a small car. I feel that the use of Motorcycles in police work is passing quick.

I want to take this oppourtuny to thank the Honorable Board of Select- for the assistance and cocperation they have extended me. I am extremely grateful to the outside police departments and officials of the Lowell District Court for their cooperation they have extended to me during the past year. My comrades are to be commended for their loyalty, cooperation and interest that they have manifested in the duties of the department.

Respectfully submitted,

BERNARD F. McGOVERN,

Chief of Police

REPORT OF FIRE ENGINEERS

To the Honorable Board of Selectmen, Chelmsford, Mass.

Gentlemen:

The annual report of the Board of Fire Engineers is respectfully submitted herewith.

The Board is organized as follows:

Harry L. Shedd, Chief.

John W. Dixon, Asst. Chief.

John M. Kemp, Asst. Chief.

with the latter also serving as Clerk of the Board.

The Board appointed the following District Chiefs:

Wilhelm T. Johnson

District No. 1

Joseph D. Ryan

District No. 2

Norman Edwards

District No. 3

Henry G. Quinn

District No. 4

Arthur W. House

District No. 5

Norman Edwards of District No. 3 was obliged to resign as of October 1 by reason of his moving out of town and the Board appointed Elmer Trull as District Chief in his place.

We believe that Mr. Edwards' separation from the service is a distinct loss both to the town and the Department. Mr. Trull has been connected with the Department since its inception and his long and faithful service gives evidence that he will make an exceptionally efficient executive.

There have only been one or two other changes so that the roster remains practically the same as last year. Drills have been held as circumstances permitted and we now have a force of trained men unexcelled by any town of similar size in the State. We take this opportunity of commending both the officers and men for their loyalty and whole-hearted accomplishments.

The apparatus, equipment, quarters and fire alarm have been carefully taken care of and kept ready for instant service both day and night.

In order to afford the South Village adequate protection, it will be necessary to at once replace worn out apparatus and equipment with new. The present facilities have been repeatedly repaired but now it is imperative for the safety of the persons and property of our citizens as well as in the interests of economy that we secure new apparatus.

The Department has responded to 92 alarms, including 18 calls for brush fires and 12 calls for fires in adjoining towns.

Three fires of major proportions in Lowell received substantial help from our Department which was gratefully acknowledged by the Mayor and City Council. In the serious fire at the Marist Brothers' School at Tyngsboro, the prompt and efficient response of the Company at the North Village was un-

doubtedly the means of preventing the total destruction of that building.

We regret to note the passing of Observer Blood who has been of inestimable help to this Department and whose place it will be difficult to fill.

We wish to acknowledge gratefully the services of the Chief and Officers of our excellent Police Department, the State Troopers and motorcycle police of Lowell all of whom have always responded to every call with hearty and intelligent service.

HARRY L. SHEDD,
JOHN W. DIXON,
JOHN M. KEMP.

REPORT OF THE BOARD OF HEALTH

The Town has been very fortunate the last year in Contagious diseases in showing a steady improvement from the report submitted by our Agent Mrs. Mae Lewis.

A great deal has been done to bring about better conditions to benefit the school and pre-school children. The great value of the Schick test and immunization clinic is readily apparent. However our Agent Mrs. Mae Lewis, deserves much credit. After years of careful study and consideration most successful in all her undertakings considering so great a territory successfully and covering the entire town. This ought to be appreciated by all the citizens and parents of school and pre-school children of Chelmsford. The Clinics have been held as usual in all different sections of the Town and with special care to pre-school children and have been well attended which you will find in her report.

During the past three years two new dumps were opened, one in the Westlands, and one at the North village. If the residents will use a little care in using these dumps they will save the Town considerable expense. At the Westlands, the Board decided something must be done after careful inspection and consideration believes it necessary to make some arrangements to eliminate the nuisance. I am quite satisfied that conditions are extremely bad hoping the present conditions of dumping will be discontinued.

During the past three years the plumbing rules were put in force by the Board. They are the same as in all Towns in the State and are the lowest required by the Dept. of Public Health.

The Board urges the citizens to study the report of the Plumbing Inspector carefully. The milk supply of the Town has improved greatly in the past few years.

The Board trusts the citizens will study the report very carefully and the report of the Agent, Plumbing Inspector, Inspector of Milk, and of Markets included.

Regulations for the sale and care of milk and milk products.

Milk or cream kept for sale in every store, shop, restaurant, market, bakery or other establishment shall be stored in a covered cooler, or refrigerator. No vessel containing milk or cream for sale shall be allowed to stand outside said cooler, box, or refrigerator except while a sale of said milk or cream is being made. Every such cooler or refrigerator shall be properly drained and cared for; and shall be tightly closed except during such intervals as are necessary for the introduction or removal of milk, cream or ice, and they shall be kept only in such location and under such conditions as shall be approved by the Board of Health.

All cans, bottles, or other vessels of any sort, used in the sale, delivery or distribution of milk or cream shall be cleaned or sterilized before they are again used for the same purpose and all trucks and wagons used in sale or distribution shall be kept in a clean condition and free from offensive odors. No person shall use a milk or cream bottle or vessel or container for any other substance than milk or milk products.

Per order of the Board of Health.

The Board of Health of the Town of Chemsford as authorized by the General Laws, Chapter 111, Section 31, hereby makes the following regulations for the public health.

The Board earnestly requests the cooperation of all citizens of the Town in securing a desirable sanitary condition, and wishes to be notified of any existing nuisance, source of filth or cause of sickness within the town.

No person shall construct or establish within the town any cesspool or privy vault without a written permit from the Board of Health, and then only in such location and in such manner as it shall approve. No person shall establish a well for drinking or domestic purposes without a written permit from the Board of Health. No person shall keep swine within the limits of the town without first obtaining a permit so to do from the Board of Health, and in all respects complying with the conditions of such permit.

I kindly wish to thank everyone for their excellent cooperation in rendering their assistance in any way to the Agent Mrs. Mae Lewis, and other members of the Board. Also Dr. Scoboria and Dr. Varney, School Physicians.

Respectfully submitted,

December 31, 1933.

GEORGE A. McNULTY, Chairman.

REPORT OF THE AGENT OF BOARD OF HEALTH

Mr. George McNulty,

Chairman of Board of Health.

Dear Sir:

The following is a report for the year 1933:

Scarlet Fever	40
Chicken Pox	2
Whooping Cough	8
Tuberculosis	3
Lobar Pneumonia	3
Measles	24
Diphtheria	1
(This child refused second and third immunization treatments for the prevention of diphtheria.)	
Dog Bite	9
Erysipelas	1
Trichinosis	1
Investigations	134
Sanitary Visits	38

In case of contagious disease in any school room, the school physician examines the pupil and the nurse inspects those who have been in contact with the diseased child. Books are taken and fumigated by the nurse and returned to schools and libraries from where they were taken.

Several trips were made to the Middlesex County North Reading and Tewksbury Sanitoriums with patients; also, many visits were made to the G. U. clinic in Lowell.

Pupils schicked in May who were immunized in October, 1932:

Negative	191
Positive	25

Those 25 children were re-immunized in October, 1933, when we conducted our annual immunization clinic for the first grade and pre-school children. At this clinic we immunized 285 pupils and 25 pre-school children. Our enrollment in October was 1265 in elementary schools when we made our check-up. I find that we have 1103 who have received the schick test. We would like to have every child in school who has not had the test take it this coming year, especially the toxin-anti-toxin, which is for the prevention of diphtheria.

The results of the follow-up clinic by the Department of Public Health, division of tuberculosis, showed a great improvement this year. On October 16, we X-Rayed 26 children.

The chest examination was given on November 3, by Dr. McCarthy, Department of Public Health. The following is a result of the examination:

Examined	26
Improved	21
Unimproved	1
Discharged	4

The child who was unimproved and recommended for sanatorium treatment has since entered a sanatorium and reports a gain.

Dr. Archibald and Dr. DeWolf, health officers from the State Department of Public Health, visited several times.

Regular sanitary inspections of school buildings reveal them, with few exceptions, to be in a sanitary condition.

Dr. Ritter, school dentist, had done a fine piece of work in the grammar schools. He is at present working in the Westland School.

Number Examined by School Dentist	810
Permanent Fillings	510
Temporary Fillings ..	320
Teeth Treated	138
Permanent Extractions	35
Temporary Extractions	206
Cleanings	516

It was made possible for a number of children to have dental work done at a reasonable price. Some of the Parent-Teacher Associations have contributed toward the dental work for children who are unable to have their teeth attended to.

I wish to thank everyone for their kind and excellent cooperation.

Respectfully submitted,

December 31 1933.

ANNUAL REPORT MILK INSPECTION DIVISION

December 31, 1933.

Board of Health,
Chelmsford, Mass.
Gentlemen:

I have the honor to present the report of the Milk Inspection Division for the year ending December 31, 1933.

Milk licenses were issued to forty-six stores and twenty distributors. Three stores registered to sell oleomargarine. Thirty-four dollars and fifty cents, collected for licenses, was paid to the Town Treasurer.

Three hundred and ten dairy farms supplied Chelmsford with milk during 1933. There were nine hundred eighty-eight chemical; four hundred thirty-one bacterial; three hundred forty-three sediment; three hundred eighty temperature samples from distributors, and four hundred twenty-eight bacterial samples from producers.

The yearly average for total solids was 13.10%; butter fat 4.07%. The median bacterial count was 8,700 per cubic centimeter for pasteurized milk; 9,400 for raw milk; 45,000 for cream. There were fifty-six milk plants and four hundred forty-six dairy farm inspections. Approximately one thousand eight hundred seventy-two quarts of milk are consumed daily in Chelmsford.

The bacterial counts, from the producers as well as from the distributors, were unusually low this year, showing that greater care is being used in the handling and storage of the product prior to the delivery to the consumer.

Respectfully submitted,

M. F. MASTER,
B. S. in Chem.

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Honorable Board of Selectmen,
Chelmsford, Mass.
Gentlemen:

I respectfully submit my annual report as Sealer of Weights and Measures, for the year ending January 1, 1934.

REPORT OF INSPECTOR OF SLAUGHTERING

January 1, 1934.

To the Board of Health,

Chelmsford, Mass.

Gentlemen:

I submit the following report of animals slaughtered by licensed butchers and owners at their premises. From January 1, 1933 to January 1, 1934. Have been inspected by me.

Cattle	490
Calves	622
Hogs	607
Sheep	2980
Goat	1

Of these were condemned

Cattle	6
Calves	19
Hogs	2
Sheep	1

All inspections have been reported to the State authorities

Respectfully submitted,

W. C. GALE,

Inspector of Slaughtering.

REPORT OF INSPECTOR OF MARKETS

January 1, 1934

To the Board of Health,

Chelmsford, Mass.

Gentlemen:

I submit the following report on markets, butcher and fish carts. I have found them in good condition, although I have condemned 1365 lbs. of meat and 36 lbs. of fowl that had to be destroyed.

Respectfully submitted,

W. C. GALE,

Inspector of Meats.

INSPECTOR OF ANIMALS REPORT

January 1, 1934

Board of Selectmen,

Chelmsford, Mass.

Gentlemen:

The following is a report of the work done by this department under the direction of the Division of Animal Industry, State Department of Conversation during the year 1933.

The animal inspection has just been completed and a detailed report of the condition of all stables and the animals therein submitted to the above named Division.

In 203 stables five more than last year, there are 676 dairy cows, 209 young cattle and 24 bulls, making a total of 909 cattle, 85 less than last year. The loss is in the number of dairy cows, as the young cattle and bulls show an increase of fourteen head.

There are also 530 swine, 17 sheep and 7 goats.

One hundred fifty-nine stables are now under state and federal supervision for the eradication of tuberculosis, thirty-five others have not yet received the first-test, but all cattle in these stables, 84 head, will be tested early in January.

The owners of these cattle are for the most part desirous of having the test applied as they see the great disadvantage of not having a tested herd.

The other nine stables have only sheep, goats or swine. 528 cattle received the first test during the year and 302 head reacted and were killed, 22 head were condemned on subsequent tests, although many herds have not yet had a second test.

Your inspector is required to report whether condemned cows have been removed from herds, to see that all stables in which diseased cows are found, are repaired, cleaned and disinfected according to requirements.

Owners cannot secure payment for reactors until the disinfection and clean-up is properly completed

Thirty-four dog bite cases have been investigated. Twenty-four dogs were quarantined for a period of two weeks for observataion and then released, no rabies having developed.

No positive case of rabies was found in town this year.

238 dairy cows, 162 beef cows, 641 calves, 30 bulls, 58 sheep and 4 steers were shipped into town from Maine, New Hampshire and Vermont on 108 per-

mits, they were identified by descriptions and tag numbers and all that had passed the required tests within the specified time were released, the others were held in quarantine until tested.

No cases of hog cholera or glanders have been reported.

All persons bringing cattle into town from other states should not fail to get a permit to accompany the shipment.

I desire to express my appreciation to the Board of Health, Police Department and physicians for their cooperation in dog bite cases.

ARNOLD C. PERHAM,
Inspector of Animals.

REPORT OF FOREST WARDEN

To the Honorable Board of Selectmen.

Chatham, Massachusetts.

Gentlemen:

I have the honor to submit the following report for the year ending December 31, 1931.

The past year we have been called to extinguish fifty-seven (57) house and grass fires. The fire loss was very low, due to frequent rains and damp weather. Statistics show that there were fewer fires during 1931 than for many years past.

Too much credit cannot be given the late State Observer, Clarence Blood, for the very helpful assistance he has given at all times. His advice in locating fires in this town has proved to be a great aid.

Most fires were caused by careless smokers, some were of unknown cause.

About seven hundred (700) permits were issued for fires to be set in the open. The citizens of the town have shown fine co-operation in caring for fires and very few have gotten beyond control.

The equipment of this department at the beginning of 1931 was in a very poor condition. Many hand extinguishers were entirely worn out and had to be replaced others were reconstructed and tested before they were fit for service.

During my inspection of extinguishers in outside districts some thirty (30) in number. I found many that had not been tested for four years, and were beyond all usefulness. These had to be replaced either by new or reconstructed ones making an added expense to the town.

At the close of the past year all hand equipment was in excellent condition, but we are badly in need of a new truck and a portable fire pump. Our truck is badly worn and out of form. In order to give the best possible service we should have a better truck equipped with a portable pump for use in outside districts. This pump would also be valuable for building fires where the water supply is limited and large pumping engines are useless.

Besides the District Clerk of the Fire Department the following Deputy Forest Wardens were appointed: Alton H. Adams, Walter H. Merrill, Fred W. Merrill, Fred L. Fletcher, Jose G. I. W. Swenson, and Robert Henderson.

In conclusion I wish to express my appreciation to the Police Department, Fire Department and Deputy Forest Wardens for the fine assistance and co-operation that they have extended me during the past year.

Respectfully submitted,

GILBERT S. PERRIN,
Forest Warden.

REPORT OF CEMETERY COMMISSIONERS

January 6, 1934

To the Board of Selectmen,

Chelmsford, Mass.

Gentlemen:

The Cemetery Commission beg to submit the following report for year ending December 31, 1933.

Fore Fathers and Pine Ridge, both of these cemeteries are in excellent condition at the present time. We have carried on the various works necessary for the year, and we beg to state that we have accomplished this work and kept within the appropriation for the present year. The main gate at the Fore Fathers has been broken, caused by an automobile accident, but the repair is covered by insurance, otherwise this cemetery is in good condition. In Pine Ridge work has been going on until the 19th of December in the cutting and removal of brush.

Riverside and Fairview are in their usual good shape. In Riverside the Superintendent has spent much time and effort to improve this cemetery, on the hill curbings on old lots have been put back into place and some grading done. The new section of this cemetery is much easier to care for and shows improvement. General care has been given Fairview. In this cemetery there are few lots sold as yet and the whole section has to be cared for by us. Some time we hope to be able to have a fence at this cemetery, if only along the front.

West cemetery in the new section more lots have been graded and continuation of building avenues. This work is done each year so as to get grade in this section. Also more of the fence has been painted. The old trees that have died out have been replaced, and there has been general fall cleaning throughout the whole cemetery.

Hart Pond cemetery new work in building new avenues in accordance with blue prints, and filling in new lots which are to be ready for sale. The general up-keep has been good. We were given a number of small evergreen seedlings which have been set out and we believe are all alive.

Respectfully submitted,

ARTHUR O. WHEELER,

BAYNARD C. DEAN,

C. WESLEY LYONS

Cemetery Commission.

MIDDLESEX COUNTY EXTENSION SERVICE REPORT

The following is a general report of the work carried on by the Middlesex County Extension Service in the Town of Chelmsford for 1933.

In agriculture, help was rendered in filling out applications to complete area testing for eradication of bovine T. B. Assistance was also given in securing dairy replacements and construction of milk houses.

Many farm visits were made to poultrymen to assist them in their management problems. A winter meeting of interest to fruit growers was held and attended by 46.

A group of apple growers interested in the control of railroad worm were quite successful in attempting to establish a control area. Many individual farm visits were also made to assist the fruit growers in spraying, culture, and marketing.

A series of meetings on child guidance was carried on by members of the North Chelmsford P. T. A. with Mrs. David Sullivan and Mrs. Patrick Miskell serving as local leaders.

Food demonstrations were given in East Chelmsford, Westlands, and South Chelmsford.

The Town of Chelmsford has the distinction of having the largest enrollment of boys and girls in 4-H Club work of any town in the county. There are 24 clubs with an enrollment of 318, in projects of clothing, handicraft, food, homecraft, and poultry. Among those serving as local leaders were Mrs. R. P. Kidder, Mrs. R. Emerson, Mrs. Vivian Jackson, Mrs. Harry Shaw, Mrs. E. D. Harris, Mrs. Ernest Ferron, Mrs. Joshua Machon, Mrs. Charles Fielding, Mrs. Robert Barris, Mrs. Edward Riney, Miss Bertha Long, Edwin Eriksen, John Rikkola, John Daughraty, Dewey Fish, Sidney Dupee, Bernard McLaughlin, John Cassidy, Charles Vroukas, Thomas Koulas, Charles House, Louis Forrest, and Harry Hilyard.

The town chairman, Perley Kimball, gave valuable assistance with the junior work, holding a committee meeting, helping to find leaders, furnishing transportation whenever needed and assisting at the local rally. Club leaders from the various parts of Chelmsford gathered at the center and enjoyed two suppers during the year. Mr. Kimball here again was largely responsible for the success of these group meetings.

It was voted by the leaders to hold a general exhibit and rally for the entire town in place of separate exhibits in each community, hence a Chelmsford 4-H Club night was held at the Town Hall with 21 out of 24 clubs represented with exhibits or participants in the program. Mr. George L. Farley, State Club Leader, was so impressed by the effort made by the leaderless garden club boys of Mill Road who walked $2\frac{1}{2}$ miles that hot night to take part in the rally that he invited a representative of the group to be his own special guest for a week at Camp Middlesex.

Winners of the two-day trip to Massachusetts State on the merits of their club work were Armond Patenaude, Pauline Lundberg, Rita Ferron, Pauline Sullivan, Howard Abrahamson, and John McCormick.

Mrs. Barris, Mrs. Fielding, Mrs. Machon, and Mr. Fish attended the leaders' camp during Camp Gilbert at Massachusetts State College.

Julia Koulas was awarded a blue ribbon in the neat account book contest. She also won third prize of \$6.00 in the large garden class in the Middlesex North Agricultural Garden Contest.

Irene Cox, Loretta Archibald, Emily Santos, Aurelia Sousa, Hope Fielding, Rita Silva, Mary Shaw, Anna Shaw, Helen Mourad, Margaret Jensen, Eva Kelly, Frances Fox, Arlene Corr, Rita Ferron, Isabelle Hamilton, and Pauline Lundberg entered the dress contest which was held in conjunction with the homemakers' picnic at Lexington. Of these, Eva Kelly was a winner in the party dress division, Margaret Jensen in the junior school dress, and Isabelle Hamilton in the senior school dress class.

The 4-H Clubs were well represented at the club officers' training school held in Lowell. Ten junior news reporters took advantage of the opportunity offered by the Lowell Courier-Citizen of visiting the printing plant where Mr. Paul Dutton acted as guide in conducting the party.

The first and third prize winners in the large garden section of the contest sponsored by the Middlesex North Agricultural Association were Ralph House, \$10.00, and Julia Koulas, \$6.00. Julia Koulas has for several years been one of the winners in this particular contest.

SCHOOL CALENDAR

The school year is divided into a fall term ending at the Christmas vacation, and three terms after the Holidays.

Fall term from September 6, 1933 to December 22, 1933.

Second term from January 2, 1934 to February 16, 1934.

Third term from February 26, 1934 to April 13, 1934.

Fourth term from April 23, 1934 to June 22, 1934.

The school year of 1934-1935 will open on Wednesday, September 5, 1934.

NO SCHOOL SIGNAL

In case of extremely bad storms or of roads dangerous because of ice, a signal for no school is given on the fire alarms at the Center, North, West, South, and East, three blasts, repeated three times. When given at 7.15 there are no sessions for the day. The signal at 11.15 indicates no afternoon session for the grades.

REPORT OF THE SCHOOL COMMITTEE

Herewith the report of your school committee for the year 1933.

ENROLLMENT

The enrollment in the schools in October of each of the last five years is shown on the following table:

1929	1930	1931	1932	1933
1485	1487	1572	1634	1647

REGARDING FINANCES

The following table shows the school appropriations, expenditures, receipts from the State and other sources, and the net cost of the schools to the town for the last five years:

Year	Appropriation	Expenditure	Receipts	Net cost to Town
1929	101,650.00	101,121.43	12,778.19	88,343.24
1930	104,455.00	104,092.54	11,961.69	92,130.85
1931	106,650.00	106,364.54	9,934.42	96,430.12
1932	104,100.00	101,866.03	12,961.13	88,904.90
1933	98,115.00	97,530.39	22,799.18	74,731.21

FEDERAL LOANS

Your committee made a study of the possibility of procuring a loan from the federal government for the purpose of building an addition to the high school. Title II of the National Industrial Recovery Act appropriated money to be loaned to municipalities for public works expenditures and this legislation provided that 30% of the cost of labor and materials on such public works should be paid by the federal government as a direct gift or grant to the municipality borrowing the money. Your committee was informed that the public works administration fixed the prices which should be paid to laborers and artisans and retained a sufficient amount of control over the doing of the work to make it difficult for the borrowing municipality to do the work in the manner in which it desired to have it done. It was the judgment of your committee that the 30% direct gift or grant was more than offset by the increased cost due to federal price fixing and federal red tape; that the town would be no better off borrowing money from the federal government than it would be borrowing from private sources; that unless the town is in a position to borrow money from private bankers for the purpose of construction of an addition to the high school, the money should not be borrowed from the federal government.

REPAIRS

During the year 1933 your committee spent the sum of \$3456.67 for repairs. This represents less than two-thirds of one per cent of the appraised

value of the school buildings in our care. The sum of \$1500.00 to \$2000.00 is spent annually in making routine repairs. During 1933 the committee was able, out of its regular appropriation for repairs, to paint the East Chelmsford, South Chelmsford and West Chelmsford school buildings. The school department was fortunate in having the benefit of money given to the town by the federal government under the Civil Works Administration. A large number of projects are now in progress in our department under the direction of the Civil Works Administration; others have already been completed. Because the Civil Works Administration has not yet expended any money for materials it is necessary for the municipalities to buy them. The committee was able out of its appropriation for repairs, to buy the materials needed by the C.W.A. workers. The work being done by the C.W.A. in our department will reduce the amount of money necessary to be spent for repairs in the year 1934.

SCHOOL COURSES

The Massachusetts Statutes provide that our schools shall give instruction in orthography, reading, writing, English language, grammar, geography, arithmetic, drawing, history and Constitution of the United States, the duties of citizenship, philosophy and hygiene, good behavior and athletic exercise.

Your committee, with the assistance of the superintendent of schools and the principals of the various grammar school buildings, is presently engaged in compiling a program of studies which will provide a detailed outline of the work carried on in the various grades in the schools. Our purpose in doing this is two-fold; first, to provide that the same subject matter be taught in all the sections of the town; second, in order that the teachers may know definitely whether they are keeping up with their schedules so that there will be no work in the several courses left undone when the school year terminates. This program of studies will take considerable time to prepare and we hope that when it is done it will be equal to that in any school in the commonwealth.

IN MEMORIAM

On the occasion of the death of Miss Gertrude A. Jones, a special meeting of the Chelmsford School Committee was held at the McFarlin School, where there were the following proceedings:

On motion duly seconded, it was

VOTED: That the following preambles and resolutions be adopted:

Whereas, Miss Gertrude A. Jones, principal of the Princeton Street Grammar School of Chelmsford, died on November 5, 1933;

In September 1899, Miss Jones, a graduate of Salem Normal School, was elected a teacher in the Chelmsford Schools. She began her service as a teacher in the grades. From the beginning, her work in our schools was characterized by a spirit of unselfish service to her pupils. In September 1917, the School Committee recognized and rewarded this loyal work by electing

Miss Jones principal of the Princeton Street Grammar School. As teacher of the eighth grade and principal of the school, she continued in our service until her death. Throughout her thirty-five years of teaching in Chelmsford the dominating purpose of her work was service to her students and to the community. Her character, ability, and devotion to her classes give her a place of honor on our roster of teachers. We wish to pay tribute to her memory.

Now, therefore, be it resolved,

1. That in the death of Gertrude A. Jones, we have lost a teacher of learning, wisdom, and character, who was loyal and devoted to the public good.

2. That for ourselves and for the people of Chelmsford we extend our deepest sympathy to her family and send to them as a token of our feeling a copy of these resolutions.

3. That these proceedings be spread upon the records of this Committee.

Miss Ella A. Hutchinson was appointed acting principal of the Princeton Street Grammar School until June, 1934, and it is the hope of the committee that she will continue as permanent principal after that time.

PARENTS' PART

The members of the school committee invite suggestions and criticisms from the townspeople. We encourage the parents of the school children to assist us in our work by uniting their efforts with ours. The responsibility of the parents and the committee is great and we need the help of each other to assure to the children the best that can be given to them in education.

Respectfully submitted,

JAMES P. CASSIDY

JOHN A. McADAMS

RALPH A. BERG

School Committee of Chelmsford.

REPORT OF SUPERINTENDENT

To the School Committee:

This, my sixth report in Chelmsford and the 60th in the series, should be considered in connection with previous ones, especially those of 1930 and 1932, which dealt in detail with school costs.

Data taken from official state reports were used last year to bring out the fact that our schools are being maintained at almost the minimum unit cost for all the cities and towns of the Commonwealth. The table beginning on page 7 of the 1932 report can be brought up to date by adding these figures for the year ending last June. The net average membership of the Chelmsford schools was 1561, the expenditures \$101,213.84, making the cost per pupil \$64.84. The cost per pupil in group II (the towns over 5000 in population) was \$87.90 and in the entire state \$93.58. A year ago there were ten towns which had a lower cost per pupil; now there are only eight. In this connection I quote from page 8 of the 1932 report. "The statistics show beyond the shadow of a doubt that extreme economy has been practiced in the operation of the local schools. In normal times I would use these same figures as an argument for giving the children of Chelmsford educational opportunities they do not now have. In these days of heavy tax burdens they are presented to establish the fact that we are already down to the danger line; and further diminution in financial support will inevitably seriously damage the whole school structure." I would call attention to the table on page 9 of the 1932 report, which further analyzes school costs in Chelmsford and makes comparison with group II and the state.

TEACHERS

In spite of the fact that the 1932 schedule of salaries was low in comparison with most other towns of the size of Chelmsford and that it was still further reduced in 1933, there were no resignations at the close of school last June. Normally five to eight positions have been vacated each year. There were few positions open anywhere last summer, and these few were generally filled either by promoting a teacher already in the corps or by calling back one whose position had been abolished. This condition cannot persist indefinitely; there will come a time when the normal number of opportunities for advancement will be open to teachers and then towns with low salary schedules will be at a disadvantage. As a step in the right direction I urge the immediate restoring of the 1932 schedule of salaries.

Just as the year opened, Miss May D. Sleeper, who had been on leave of absence for ill health, resigned. Miss Sleeper had taught the fifth grade in Princeton Street School for many years, and her resignation was accepted with regret. Miss Ann G. Murphy, who had been acting as substitute, was elected to the position.

In October Miss Anna C. Monahan, teacher of English in the High School for five years, resigned shortly before her marriage. Mr. John J. MacLaughlin, a graduate of Holy Cross in 1932, with an M.A. from Boston University in 1933, was elected to this position.

On November 5th the people of Chelmsford, and especially the children of the Princeton Street School, suffered an irreparable loss in the death of Miss Gertrude A. Jones. She came to Chelmsford as a teacher in the North Chelmsford High School, and, after this school was consolidated with the one at the Center, became teacher of the eighth grade and Principal of the Princeton Street school. It is the consensus of the people of North Chelmsford and of the teachers who were her associates that her place in the school and in the community cannot be filled, but in the lives of the hundreds who passed through her room her spirit will long endure.

During her illness Miss Ebba Peterson, her former pupil and a graduate of Boston University, was engaged as substitute, and she is continuing in that capacity. Miss Ella A. Hutchinson, a close associate of Miss Jones for many years, was named acting principal.

The enrollment on October 1st was 1265 in the elementary schools and 382 in the High, total 1647, an increase over last year of 13. No post-graduates had been admitted to the High School. The table on page 161 shows the growth for ten years. In the elementary schools the size of the rooms ran from sixteen at South Row to 49 in the sixth grade at McFarlin School, the average being 35. There were seven rooms with 40 or more pupils each. In some of these large rooms the assistance of cadet teachers made conditions tolerable, but in the McFarlin School it was necessary to engage an assistant. Miss Susanna Page was engaged for this position.

BUILDING NEEDS

Four years ago the voters in annual meeting authorized the appointing of a committee to investigate the congested conditions of the schools and to report at the next annual meeting. Such a committee was appointed, and made a thorough study of conditions, and their report was published in 1930. Briefly, the committee recommended an addition to the High School to contain rooms suitable for practical arts courses for boys and for girls, a gymnasium, an auditorium, and a lunch room. When the proposition was put before the voters in concrete form at a meeting held May 19, 1931, at a time when industrial and business conditions were beginning to be unfavorable, it was voted to lay the matter on the table.

Since that time conditions have changed in many ways. As the business depression became more acute and the need for relief from high taxes more urgent, school house construction everywhere came to a stop. At the same time school enrollments increased. Since boys and girls fourteen and fifteen years of age could not get work they were obliged to remain in school and

others, over sixteen, who ordinarily would have been in mills and offices wisely continued on. In normal times high schools enrolled a very few graduates, who returned with definite objectives. Now graduates in groups wished to return since there was nothing else for them to do. At the same time in the demand for economy towns and cities were voting out the very courses which were most profitable for these students who ordinarily would be at work, the practical courses, those giving them opportunity to do things with their hands instead of studying from books. In short, increased enrollments, restricted courses, fewer teachers, buildings crowded to the doors, have all contributed to an extremely difficult and unsatisfactory period in secondary education.

Now to apply this to Chelmsford High School. First, the building was designed to accommodate 225 students. It had that number in 1927. Two years ago it had 345, and a basement room was converted into a badly needed classroom. Last year it had 376, of whom 19 were post-graduates, and a second basement room, the lunch room, was made into a classroom. This year on October 1st there were 382 students, and no graduate students had then been admitted. All the rooms are very badly crowded. For assembly purposes, for the lunch hour, for athletics, and for a few classes use is made of the McFarlin School.

Some marked disadvantages in this procedure should be pointed out. They can be tolerated during an emergency, but should not be accepted indefinitely. The large classes, meeting in crowded rooms often with pupils studying in the same room, are not conducive to the best type of work. There is both a waste of time and a danger to health in sending classes, or the school, to the McFarlin building. An auditorium with proper stage arrangements is essential to good high school organization, and for some types of group work. A properly equipped gymnasium is equally important. The McFarlin play-room is very inadequate for these purposes. Folding chairs and backless benches have to be set up each time the room is used for an assembly, and then the lack of a stage makes it impossible for the majority to see those who take part in a program. For a gymnasium it is even less desirable; it is too small, and the two iron posts in the center of the floor are a serious physical hazard. Also, the use of the basement for a gymnasium is a very decided detriment to the work going on in the four rooms directly above. Noise penetrates the entire building, and in the four rooms mentioned often causes cessation of oral work. Showers were put in in 1931 for the use of the athletic teams, and have been greatly appreciated by the boys, but the only possible location, in the boys' toilet is not ideal, and the dressing room is entirely too small. The best possible use was made of the very limited space at our disposal. It has served in an emergency, but ought not be accepted as permanent. There have been occurrences since the athletic teams have been using the McFarlin School basement which might have been used as reasons for barring them out of the building altogether.

There are left at the High School two large basement rooms, dry, heated,

and quite well lighted, which could be converted into classrooms, *provided rooms elsewhere were available for lockers*. Architects working with the special committee pointed out the possibility of such use of these rooms. Having this fact in mind, it would be possible at much less cost than the plans under consideration in 1931 to provide added accommodations for the High School by erecting a separate building north and east of the present one, connected with the basement by a covered passageway. I urge careful consideration of such a plan.

This building should contain in the basement locker rooms and toilets adequate for a school of 400 or more students. In the boys' part there should be provided at once showers, a dressing room, and smaller rooms for visiting teams and for the coaches. On the floor above should be a basket ball court of regulation size, free of any obstruction; and permanent seats around the four sides of the court. Such a building is not suggested as a temporary expedient, but as a permanent part of the school plant to be used as long as the main building is used. It would not interfere with enlarging the building, if and when that should be desirable, for either of the wings, or both, could be extended to the rear.

Such a building could be used in many ways. It would serve as an auditorium until a separate one is provided, and would be larger than either town hall. Graduation exercises and some other school and community events during the year could use a larger hall to advantage. The gymnasium should be so constructed as to be fitted for community use. Without question we are entering an era of shorter working hours and of more leisure time. Fifteen years ago a national commission headed by a forward looking school man of Massachusetts, the late Clarence D. Kingsley, gave as one of the cardinal objectives of education, *the worthy use of leisure time*. What was then merely a phrase has now become a stern reality. People do have, and in all probability will continue to have, more leisure time than they formerly enjoyed. How are they to use it? Will its use be worthy in that it promotes health, character, good citizenship, happiness? Would not a community gymnasium become a valuable asset to the town in providing a wholesome place of recreation for the long winter evenings? In fact each community in the town might well be provided with such a place as an incentive to worthy use of leisure hours. The times indicate the need of more baseball diamonds, more football fields, and more basketball courts. Is Chelmsford ready to make a start?

TRANSPORTATION

The number of pupils transported, as reported by the teachers on October 1st was 592. This is 36 per cent of the total enrollment. The table below shows the streets on which these pupils take busses in the morning, the schools they attend, and the per cent, the number of pupils transported is of the whole number in each school.

No pupils are transported to East Chelmsford, Highland Ave., and Westlands schools. In many instances pupils are obliged to walk considerable distances to reach the nearest road over which a bus runs. The close schedule does not permit stops at each house in which a pupil lives; pupils are required to assemble in groups at designated points.

In the morning five busses are needed to bring the students from West and North to the High School. One, driven by Charles Campbell, leaves the P. O. in West Chelmsford at 7:20, and travels over Groton Road and North Road to the High School; it then goes over Boston Road to the top of the hill before reaching Russell Mill Pond and returns to the McFarlin School; it then goes over Littleton and Garrison Roads, leaving pupils at So. Chelmsford, and returns to McFarlin School.

A second bus, driven by Percy Robinson, starts on Tyngsboro Road near the town line at 7:20, goes from Woods Corner to Dunstable Road, returns to Tyngsboro Road, goes over Princeton St. to a point near the Lowell line, and over North Road to the High School; it then goes over Turnpike Road, Russell Mill Road and Billerica Road to the town line and returns to McFarlin School by Billerica Road; it then goes over Westford Road and School St. to West Chelmsford, leaving pupils at the Quessy School, and returns to High School by Old Westford Road and North Roads.

A third bus, driven by George Marinel, leaves Vinal Square at 7:30 for the High School; makes a second trip over the same route; then goes over Groton Road to a point near the Westford line and over West Chelmsford

Road to the Quessy School; picks up pupils on Groton Road near Crystal Lake for Princeton Street School; and then goes up Dunstable Road and takes pupils to Princeton Street.

A bus driven by Joseph Gervais leaves Vinal Square at 7:30 for the High School. A bus going to Forge Village carries a part of the pupils to the Quessy School. A large bus of the public service type, used to take Tyngsboro pupils to Lowell High School and driven by Albert Russon, takes the East Chelmsford and Riverneck Road students to the High School, and on its return trip from taking pupils to a Tyngsboro school picks up the Tyngsboro Road pupils for Princeton Street.

With some minor changes to fit the hours of closing, the return trips in the afternoon are made in reverse order.

Such a system of transporting pupils is sometimes called the "multiple trip" method. It costs less than to supply a separate bus for each route covered, and has the disadvantage of leaving some pupils at their schools almost an hour before school opens. All the transportation is provided by George Marinel under a contract price of \$8,150 a year. This is the second year of the second three-year contract with Mr. Marinel. Comparison of costs with other towns is difficult since conditions differ widely. For the year ending last June, Billerica paid \$18,631 and Westford \$9,073. Both are smaller towns.

The schools have been aided this past year, as formerly, by various organizations. Each section of the town has its parent-teacher association, and all the schools have profited from their activities. Their services are not confined by any means to the conferring of material benefits, such as hot lunches, special items of equipment, money for dental care, etc. There is possibly an even greater gain in the securing of a higher degree of harmony and sympathy between school and home. We commend the work of the P-T-A's in Chelmsford and urge parents and citizens to give them their support. The Boy Scouts, the Girl Scouts and the 4-H Clubs are all rendering a real service to our boys and girls. The adult leaders of these organizations are actuated by the highest motives of service to youth, and merit our cordial support and that of the public. We have without cost to the town the services of from two to four third year students in Lowell State Teachers College, who do cadet teaching in twelve week periods in selected rooms. We endeavor to give these young ladies valuable practical experience, and they in turn have been of very real assistance in crowded rooms and with special groups. Members of the business practice class in the High School have done clerical work in the various school offices.

To all the above and the many others who made 1933 a pleasant and profitable year for the schools, and especially to you for your loyal advice and support I express sincere thanks.

Respectfully submitted,

GEORGE S. WRIGHT.

Mr. George S. Wright,
Superintendent of Schools,
Chelmsford, Massachusetts.
My dear Mr. Wright:

I herewith submit my fourth annual report as principal of Chelmsford High School. It is my hope that many may read this report and thereby become better acquainted and more interested in the work of our school.

On January 2, 1934, there were 123 freshmen, 95 sophomores, 82 juniors, 72 seniors, and 2 post-graduates, a total of 374 enrolled; beside this number, 21 had left school, making a grand total of 395 pupils who had been enrolled this year. This is 2 less than last year at the same time. If many post-graduates had not been refused admittance, the enrollment would have been over 400.

This year we have offered Trigonometry and Solid Geometry to 3rd and 4th year pupils and next year, third year Algebra will be offered to the 3rd and 4th year pupils. This makes one large class rather than two small ones. There is no class in Early European History this year because of the small number electing it. In this way we have been able to crowd the classes into this building with the same number of teachers as last year with the exception of one class in Geometry which meets three days a week in the McFarlin School. The class rooms have been filled up with extra chairs in order to accommodate the large classes. These arrangements are not ideal by any means and should be corrected just as soon as possible by providing extra room for high school classes.

With the large classes and crowded rooms the problem of the pupils who do not want to come to school seems to be greater. This is a problem that is commanding much attention by school administrators throughout the State. At the present time there is a committee of high school principals in Massachusetts working on the question of what to do with the pupils who, for one reason or another, are not interested and therefore do not care to go to school. We try to show any such pupil in our school the mistakes they are making. With our narrow curriculum it is very difficult, if not impossible, to interest some pupils to make an honest effort to do their best. We think it is a mistake for parents to force children to go to high school when they do not want to go. We feel that it would be much better to take such pupils out of school and put them to work if it is possible to find anything for them to do. If we could have two good vocational courses added to our present course of study, it would go a long way toward solving the problems with many pupils who are misfits now.

The following is the report of Miss C. Edith McCarthy vice principal, who is the treasurer of the school funds.

The teachers of the high school are conscientious, hard-working people who are striving to make the school the best possible. A spirit of co-operation exists throughout the whole school family. The pupils have shown excellent school spirit during the entire year. It is indeed a pleasure to work with such an excellent corps of teachers and such a fine group of young people.

I am pleased to have this opportunity to publicly express my thanks to you, Mr. Wright; the school committee; the faculty; janitors; parents; and pupils for the kind assistance and hearty co-operation I have received from you in trying to make our school what it should be.

Respectfully submitted,

LUCIAN H. BURNS.

REPORT OF MUSIC SUPERVISOR

Mr. George S. Wright,
Superintendent of Schools,
Chelmsford, Massachusetts.

Dear Sir:

In the low grades the children are taught to sing simple songs with a light, head tone. They are also led to feel the rhythm of each song and to express that rhythm with bodily motion. They are led to distinguish the various rhythms such as marches, waltzes, dances, etc., the various moods in music and name them as they hear them.

Rhythm can also be carried out with simple drawings on the board. A march or waltz is sung by the children, and a child goes to the board and makes a drawing, keeping perfect rhythm with the music. Sometimes a figure is suggested, but more often the pupils show us some very clever original ideas.

The children are allowed to exercise their imaginative powers by putting their own words to simple tunes suggested to them. Eventually they will be able to write their own simple tunes and words.

In the third grade, music readings have started and progress through the school life. Two and three parts are sung in the fifth and sixth grades.

In the High School the classes meet twice a week, once for chorus, and once for music appreciation. One class is able to hear Mr. Damrosch's music appreciation hour, and the other class hears the same program as nearly as possible with the victrola.

A girls' glee club has been organized and has met for rehearsals.

The orchestra this year consists of four violins, one saxophone, one clarinet, three trumpets, two trombones, a bass horn, and piano. The orchestra meets once a week for an hour's rehearsal.

I wish to thank every teacher for his or her splendid cooperation.

Yours truly,

January 4, 1934

CHARLOTTE L. HYDE

Dr. Ritter, our school dentist, has done our children a great service by laying the foundation for strong and healthy teeth. We have been extremely fortunate in securing a dentist as expert as Dr. Ritter. He has been in schools every Wednesday between 9 and 3 o'clock during the entire school year, for four and one-half years.

The Parent Teacher Associations in all parts of the town have made it possible to take care of some of those who need dental work done and are unable to pay for it.

May Health Day proved successful in all the schools. Many fitting and clever programs were presented, after which physically fit and improvement tags were awarded the children who were physically fit and those who had improved during the year since the last award.

Our annual pre-school clinics were held in May for children entering school in September, the clinics being held in the respective schools. We had a very good attendance in all but South Row where we could not find a pre-school child. Since that time a family moved in with a child who entered in September. The purpose of this clinic is to have all defects corrected so that the child might enter school physically fit and receive the most out of his educational opportunities. That the parents have not yet come to realize the importance of this is evidenced by, first, the incomplete registration of all children entering school, and, second, by the failure to have the defects corrected after the examination has been made. Parents are told of the advisability of having the child receive the immunization against diphtheria and of the state law in regards to vaccination. Five children entered school without being vaccinated, but they were immediately sent home with instructions not to return without being vaccinated or bearing a certificate. They returned vaccinated. Only a small per cent of defects were corrected before the children entered school, therefore many lost valuable time in September and October having tonsil and adenoid operations and cervical glands treated. Three certificates were received.

The results of the follow-up clinic by the Department of Public Health, division of tuberculosis, showed a great improvement this year. On October 16 we X-rayed 26 children.

The chest examination was given on November 3 by Dr. McCarthy, Department of Public Health. The following is a result of the examination:

Examined	26
Improved	21
Unimproved	1
Discharged	4

The child who was unimproved and recommended for sanatorium treatment has since entered a sanatorium and reports a gain.

Dr. Archibald, Dr. DeWolf, Dr. Gill, and Dr. Sullivan, health officers from the State Department of Public Health, visited several times and talked over cases and health conditions in the schools and in the town.

Regular sanitary inspections of school buildings reveal them with few exceptions, to be in a sanitary condition.

In case of contagious disease in any school room, the school physician examines the pupils and the nurse inspects those who have been in contact with the diseased child. Books are taken and fumigated by the nurse and returned to schools and libraries from where they were taken.

It became necessary to exclude a number of children who had colds, in order to protect pupils with whom they were in contact.

The Parent Teacher Association sponsors the lunch room in the McFarlin School. Free lunches have been served amounting to \$117.20. Luncheon consists of: Beef stew, chowders, soup, cocoa, milk and sandwiches. The Parent Teacher Association in North Chelmsford directs the lunch room in the Princeton School, serving much the same menu as the McFarlin lunch room offers. Hot soups and cocoa are served in the Quessy and East Chelmsford schools.

A great deal of milk is consumed daily, for the most part during recess, in all of our schools, and is given free to those who are underweight and unable to buy it. We are fortunate in being able to secure milk from Mr. Blood, Mr. Blaisdell, and Mr. Catherwood, all reliable and well-known milk dealers.

The Girl Scouts gave two baskets, to needy families with children, at Thanksgiving time, while the Lions Club sent out 15 baskets of Christmas cheer, and private families contributed toward making up baskets in the way I desired. The Princeton and Highland Avenue pupils made up 5 baskets at Christmas. The Women's Alliance of the Unitarian Church made children's dresses and quilts during the year and gave them to me to distribute when necessary. The Police Department made it possible for a boy to graduate, furnishing the entire outfit. When asked to do this, Chief McGovern said, "Buy what he needs and send the bill to the department", thus making it possible for the boy to have his suit and graduate. The department gave coal and baskets to needy families during the year and at Thanksgiving time.

The aim of the Senior Health Club is: To instruct youth so that they may conserve their own health; to establish in them the habits and principles

of living, which, in later years, will assure that abundant vigor and vitality which provide the basis for the greatest possible happiness and service in personal, family, and community life; to influence an effective agency for the promotion of social aspects of health education in the home and community as well as the school itself; to improve the individual and community life of the future; to insure a better second generation, and a still better third generation; a healthier and fitter nation and race. We have, as far as is known, the only Senior Health Club in this state. I have had this club in Chelmsford High School since 1929. The members of the club have made it a point to visit an institution once a year. The girls have always sponsored a football banquet and have held a party, the proceeds of which go toward cheering up a sick member of the club. At the close of the school year the girls enjoy an outing at some lake or place of amusement. A great many of the former club members are graduate nurses now, while some are at present in training.

Pupils schicked in May who were immunized in October, 1932:

Negative	191
Positive	25

Those 25 children were re-immunized in October, 1933, when we conducted our annual immunization clinic for the first grade and pre-school children. At this clinic we immunized 285 pupils and 25 pre-school children. Our enrollment in October was 1265 in elementary schools when we made our check-up. I find that we have 1103 who have received the schick test. We would like every child in school who has not had the test to take it this coming year, especially the toxin anti-toxin, which is for the prevention of diphtheria.

In closing, I wish to express my appreciation to you, Mr. Wright, for your guidance and help in the school health work; to the school doctors, Dr. Varney and Dr. Scoboria, the teachers and parents for loyalty and support; and to the various organizations for their conscientious service and deep interest in the health program.

Respectfully submitted,

December 31, 1933

(Mrs.) MAE S. LEWIS, R. N.
